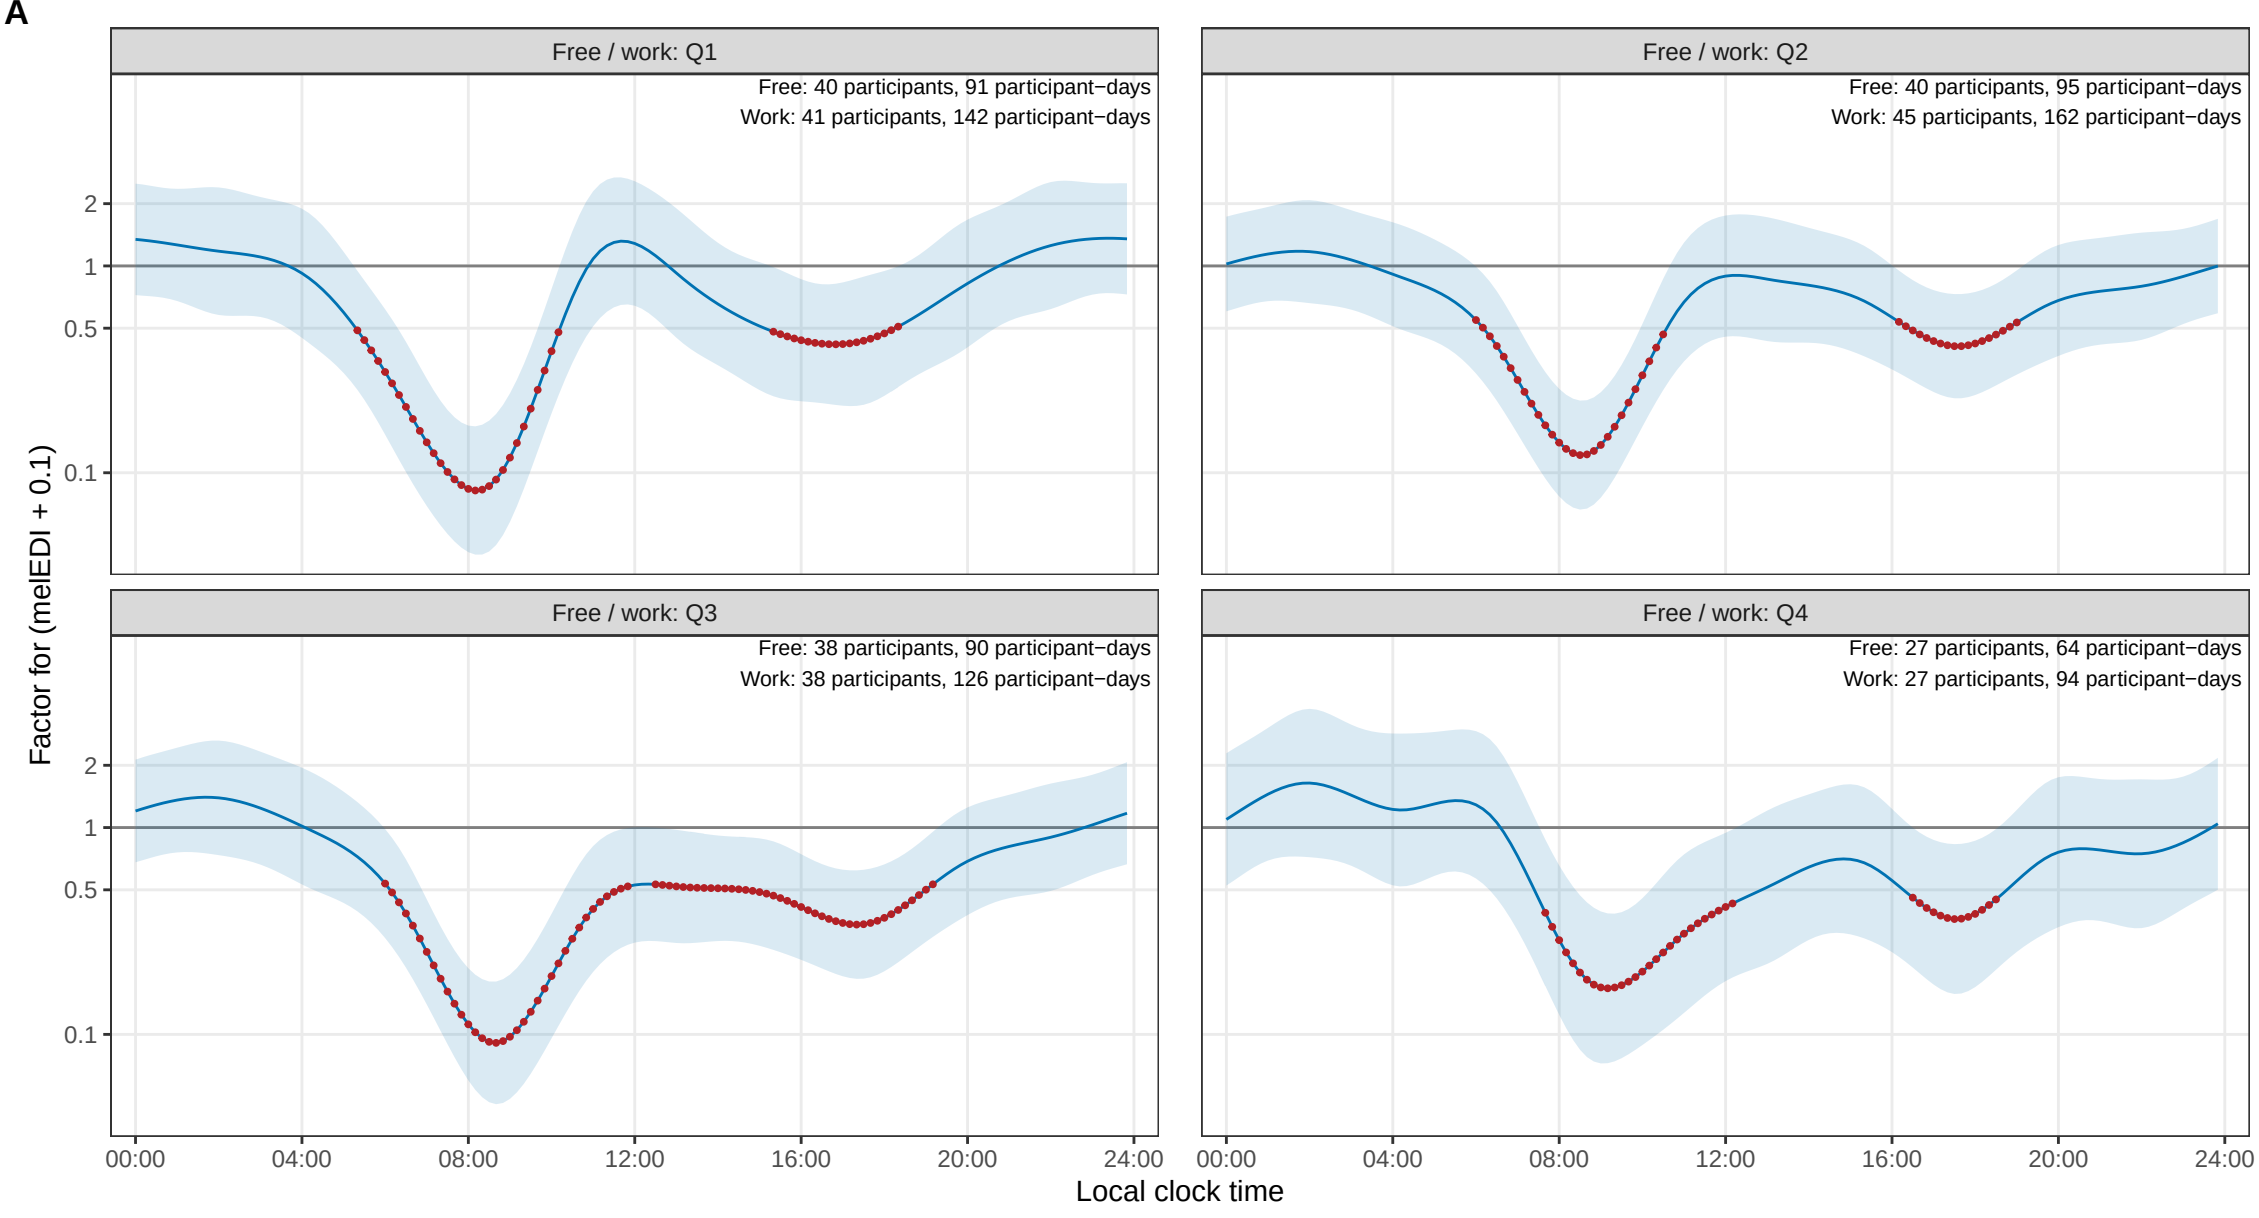
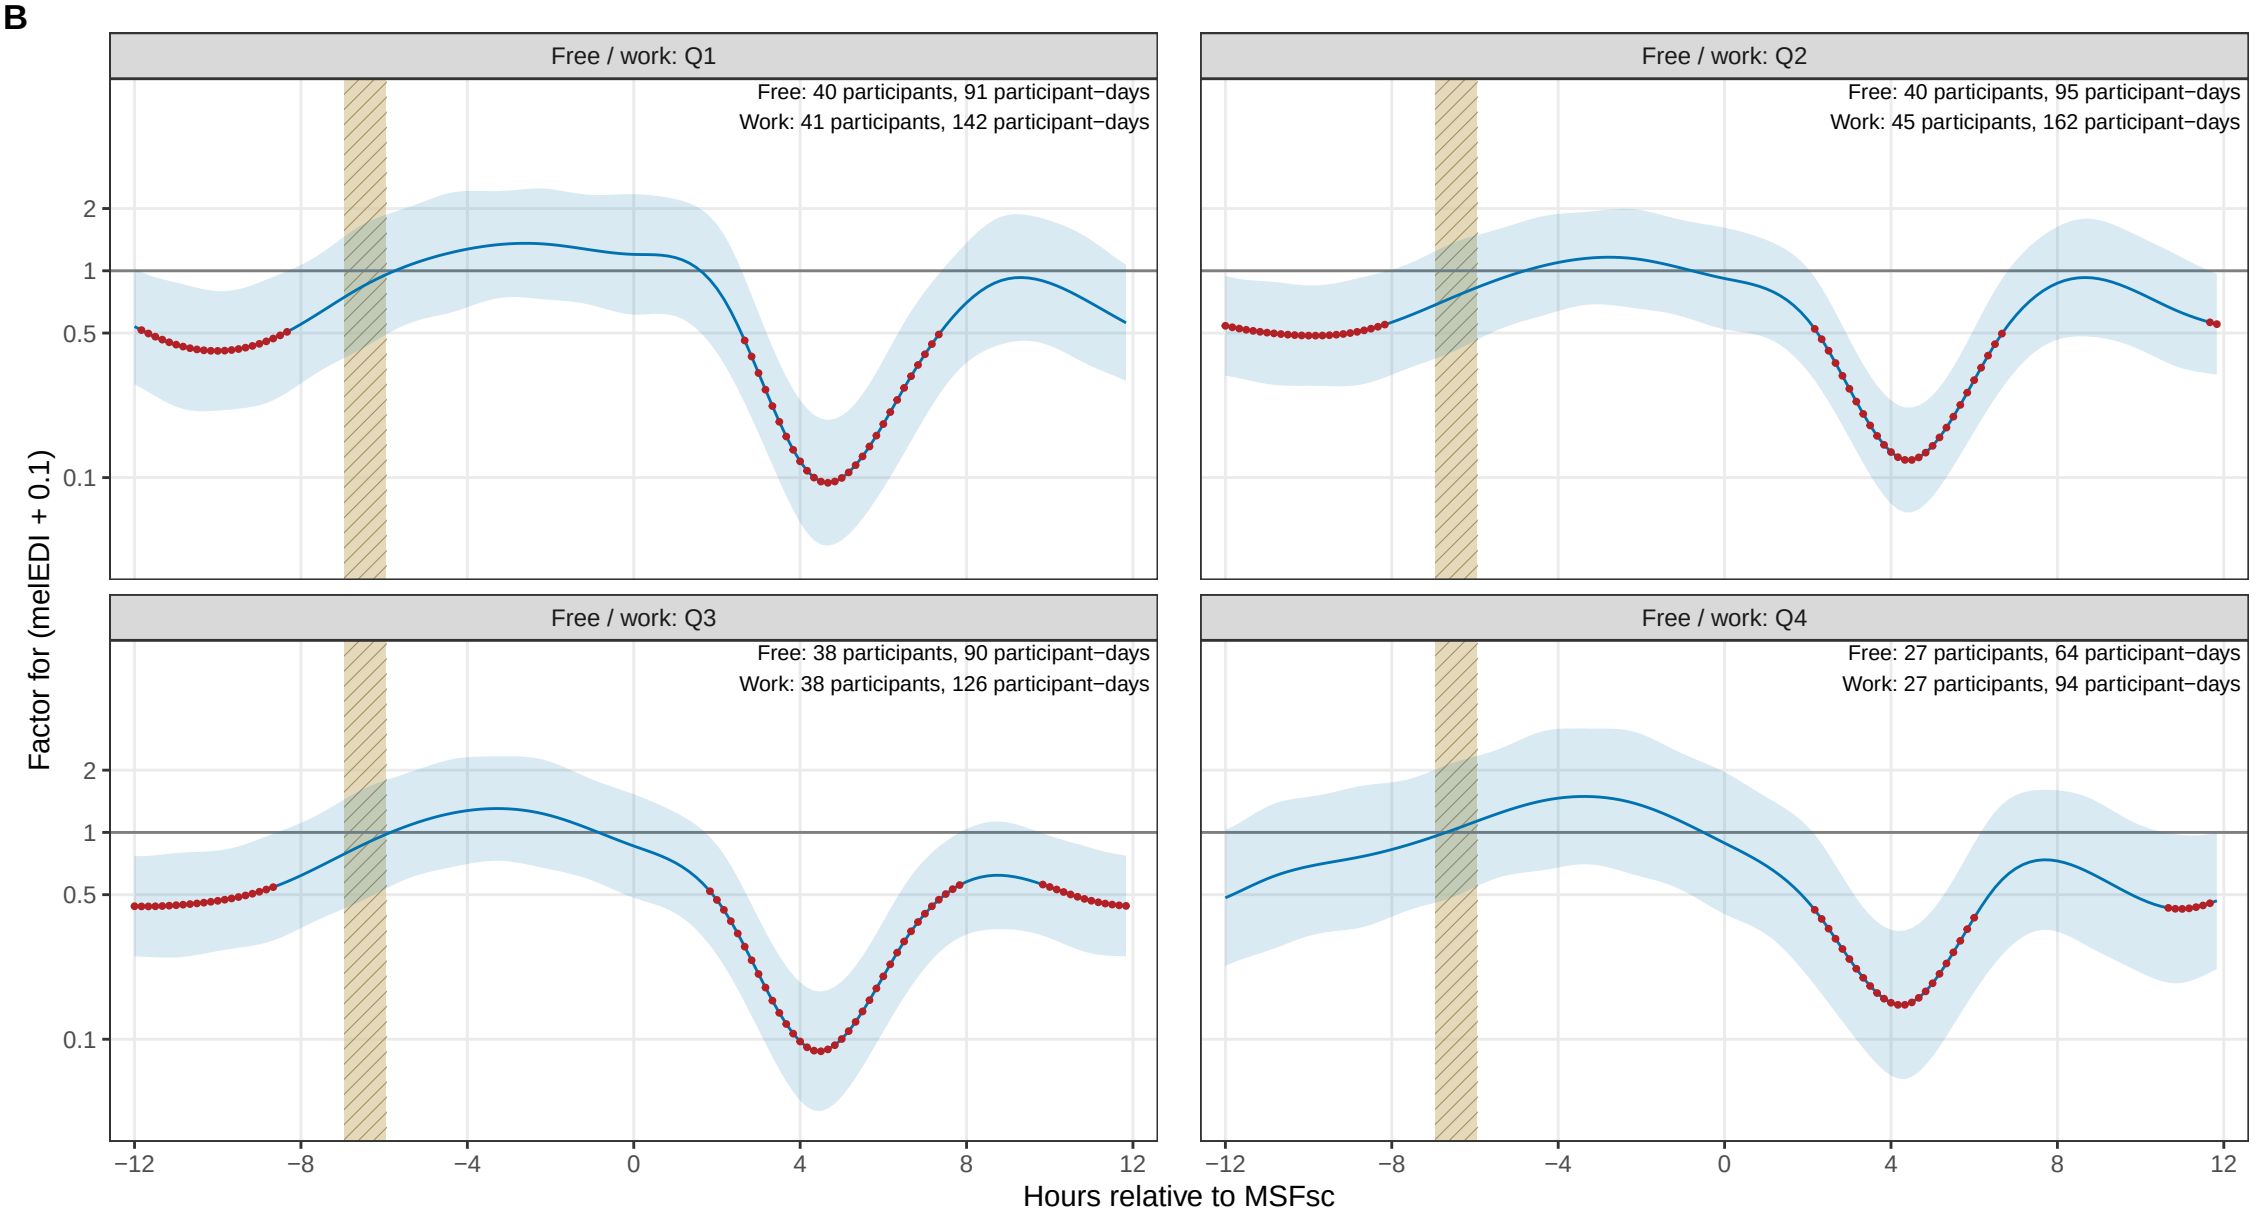
Chest Free / work

Reference: work days | Factors refer to melanopic EDI + 0.1

A



B



A: local clock time. B: circadian phase. Factor = 10^contrast; 1 indicates no difference. Striped band: DLMO reference.
Simultaneous bands: all 20 registered contrasts and times at 95% within each time coordinate.
Red points exclude 1 with at least 4 participants per contributing group/day cell. Counts are unique within each signed arm.
