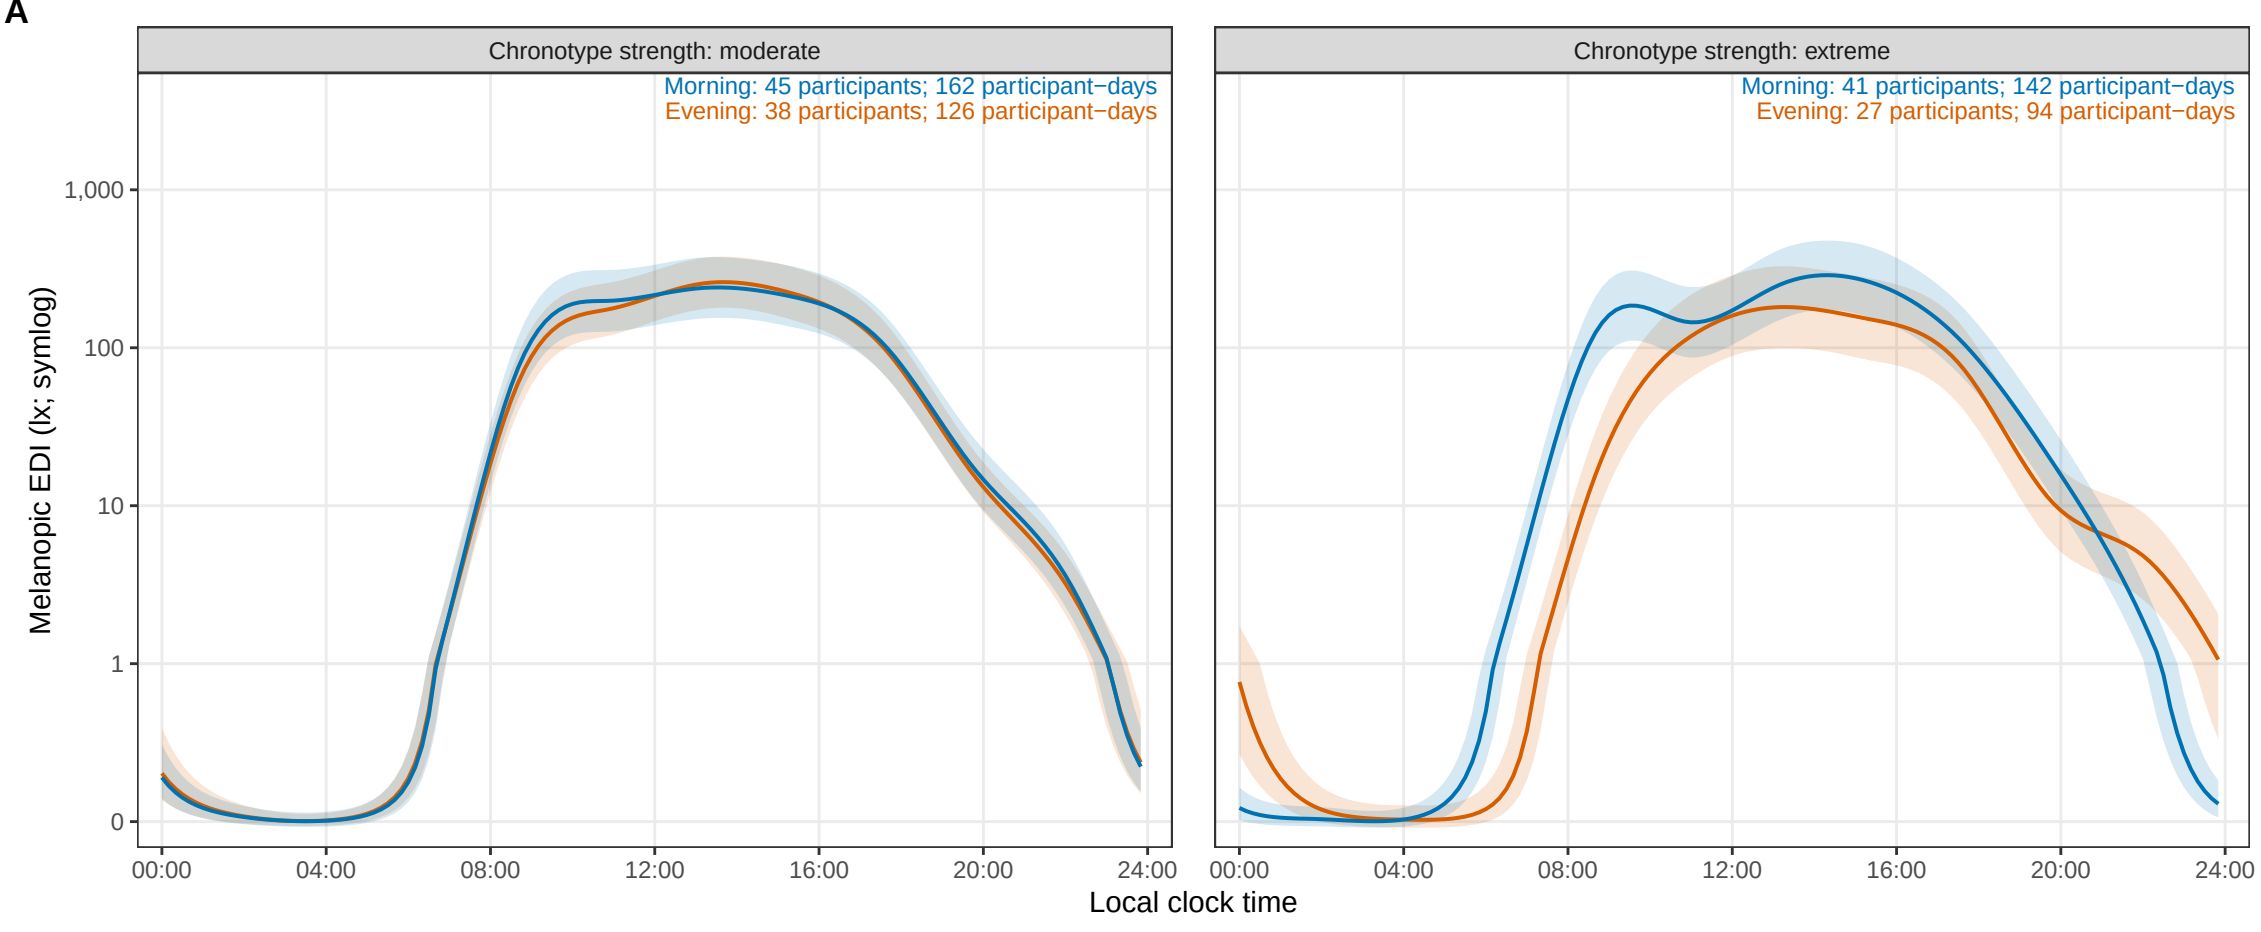
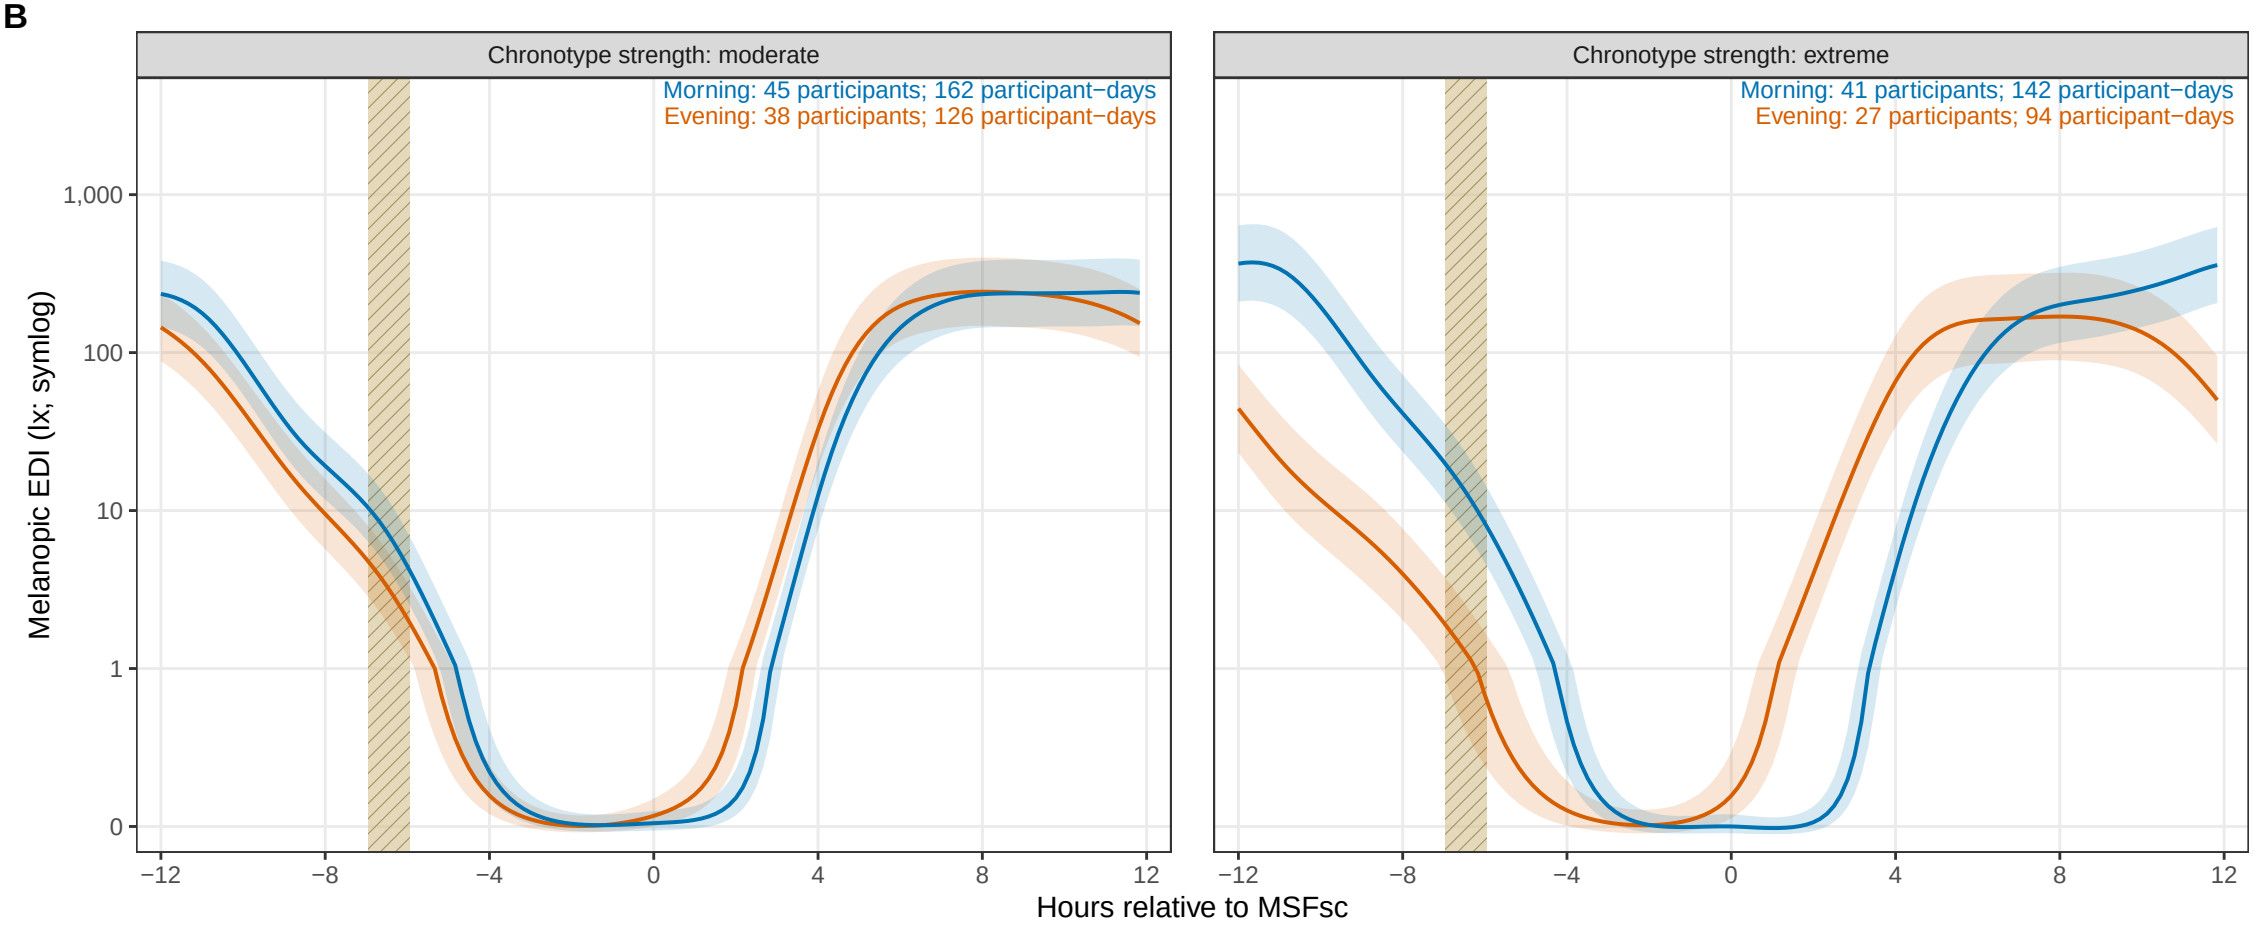
Chest Work daily exposure patterns

Common photoperiod distribution; site, participant and day effects excluded

A



B



A: local clock time. B: circadian phase. Chronotype direction: morning (blue) and evening (orange).
Back−transformed log−scale means and 95% pointwise bands. Symlog: linear below 1 lx, base−10 above 1 lx.
Striped band: DLMO reference (Facer−Childs et al., 2019). Overall uses the same work/free−day mixture for every group.
