

Blue: back−transformed participant curve with 95% pointwise band. Dashed: matching group curve.
Symlog: linear below 1 lx, base−10 above 1 lx. Each panel gives the participant's contributing days. Striped band: DLMO reference.

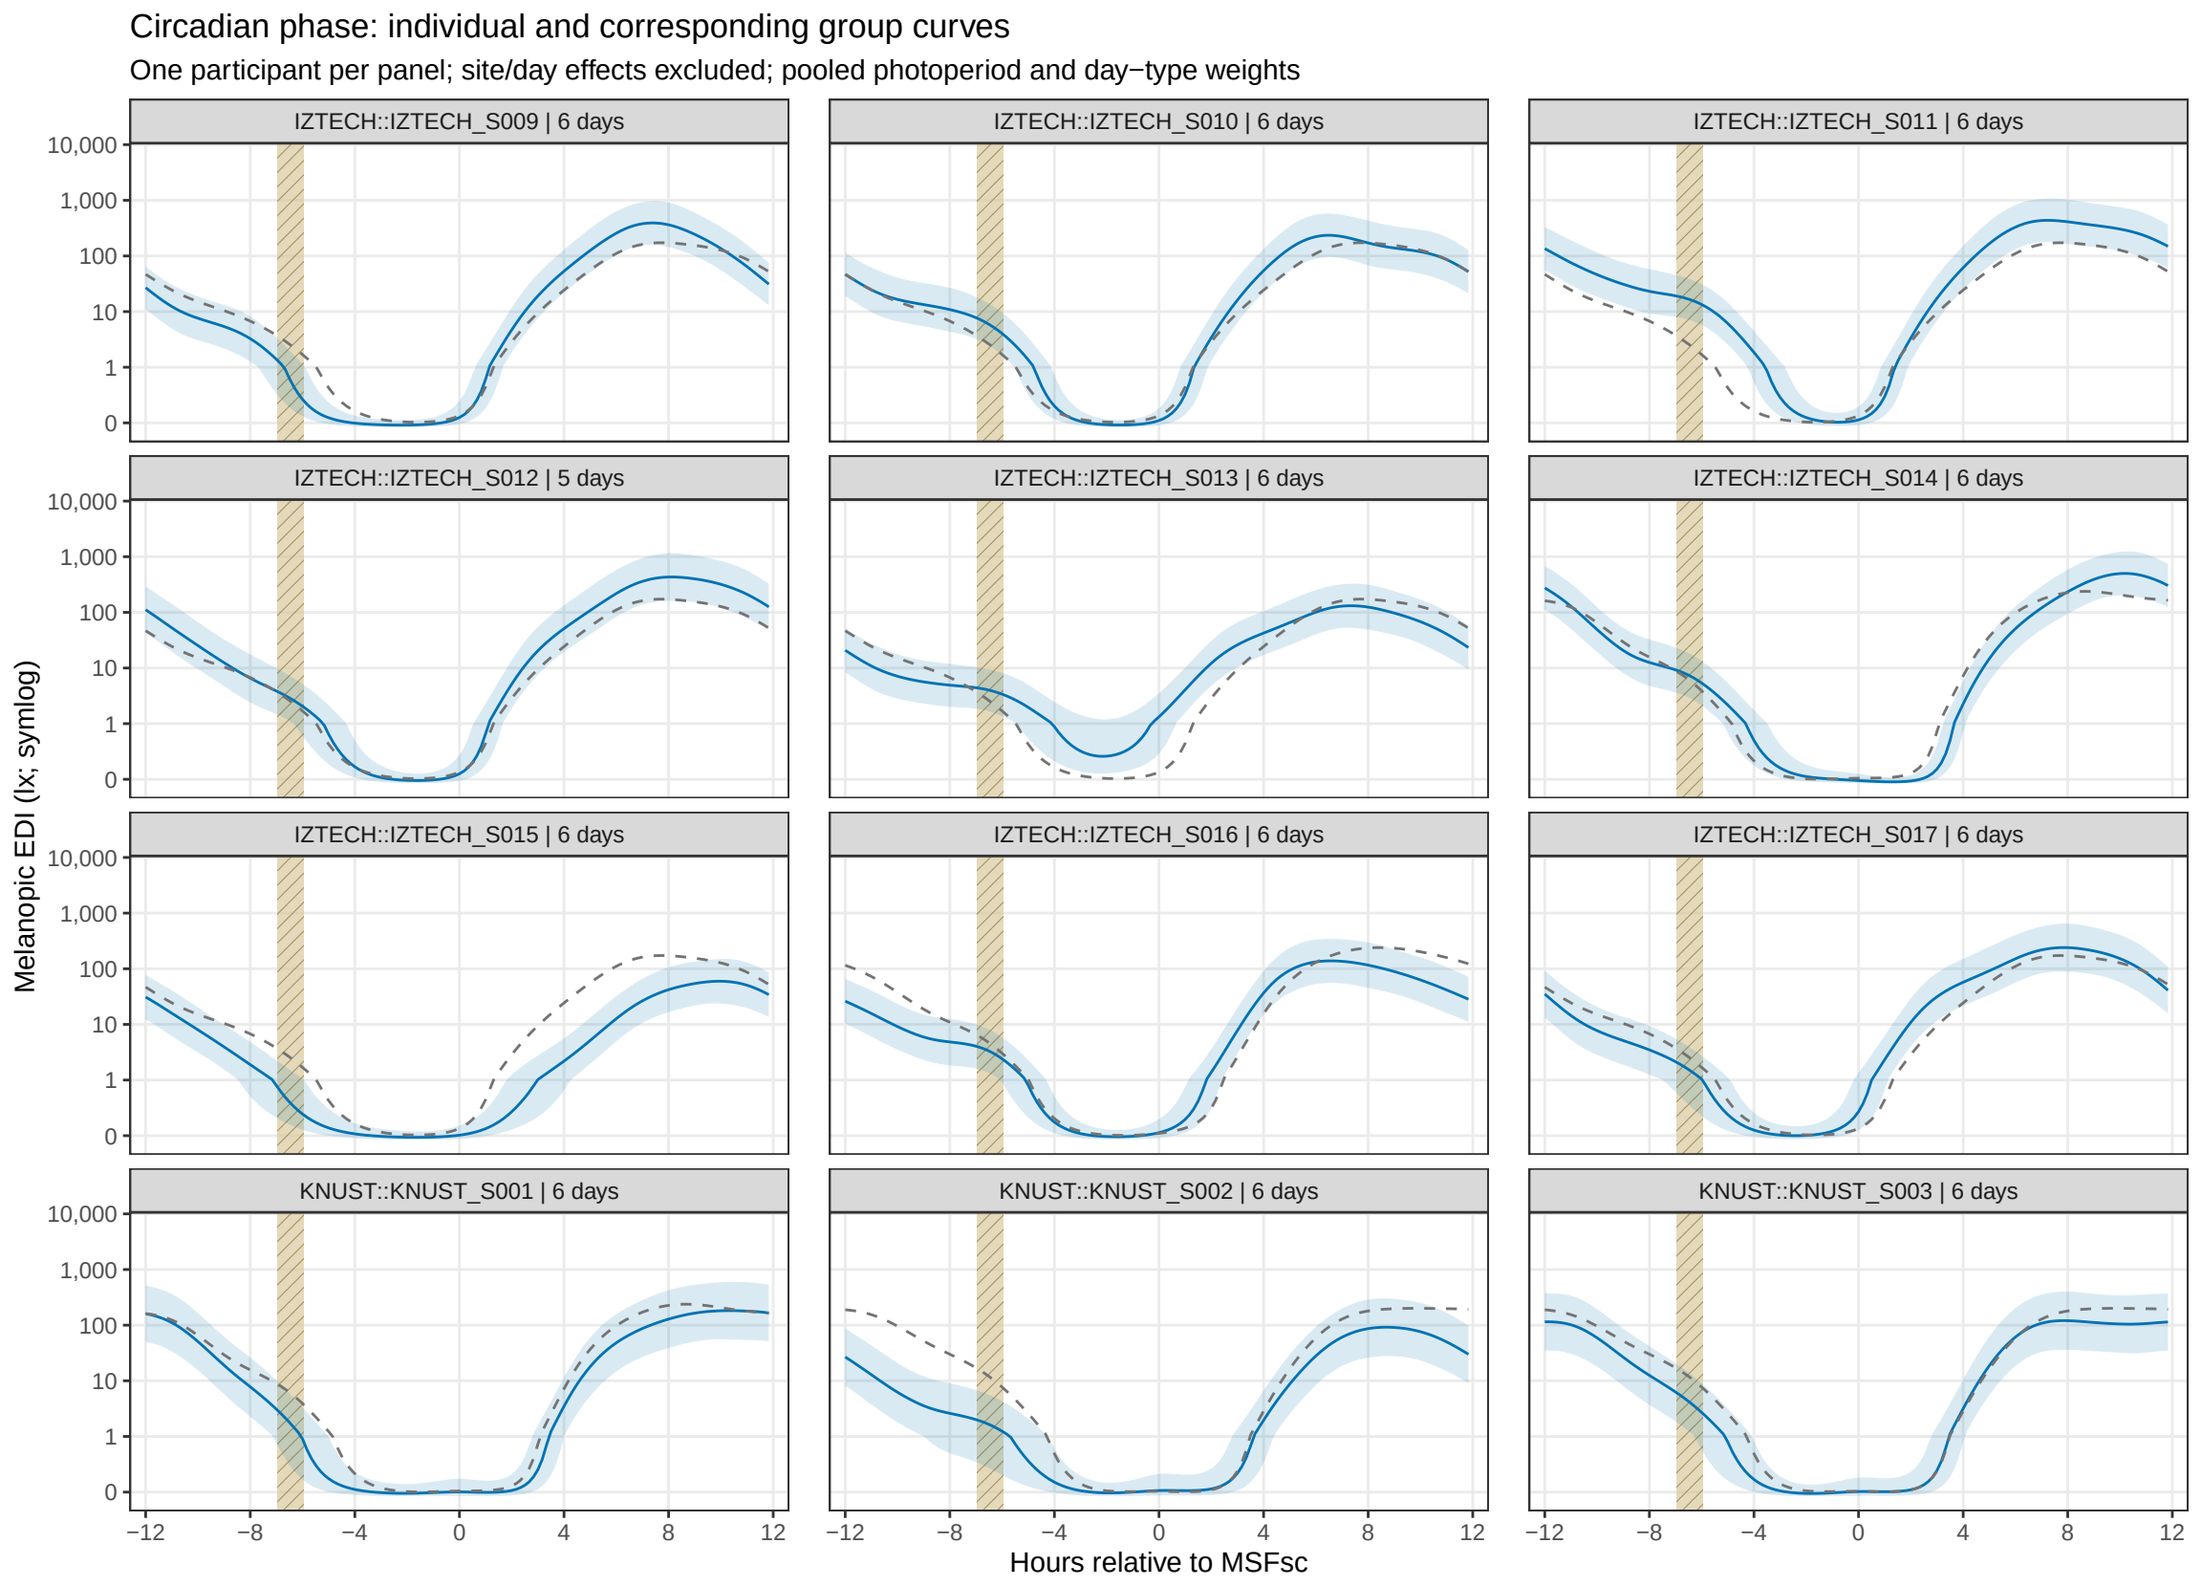

Blue: back−transformed participant curve with 95% pointwise band. Dashed: matching group curve.
Symlog: linear below 1 lx, base−10 above 1 lx. Each panel gives the participant's contributing days. Striped band: DLMO reference.

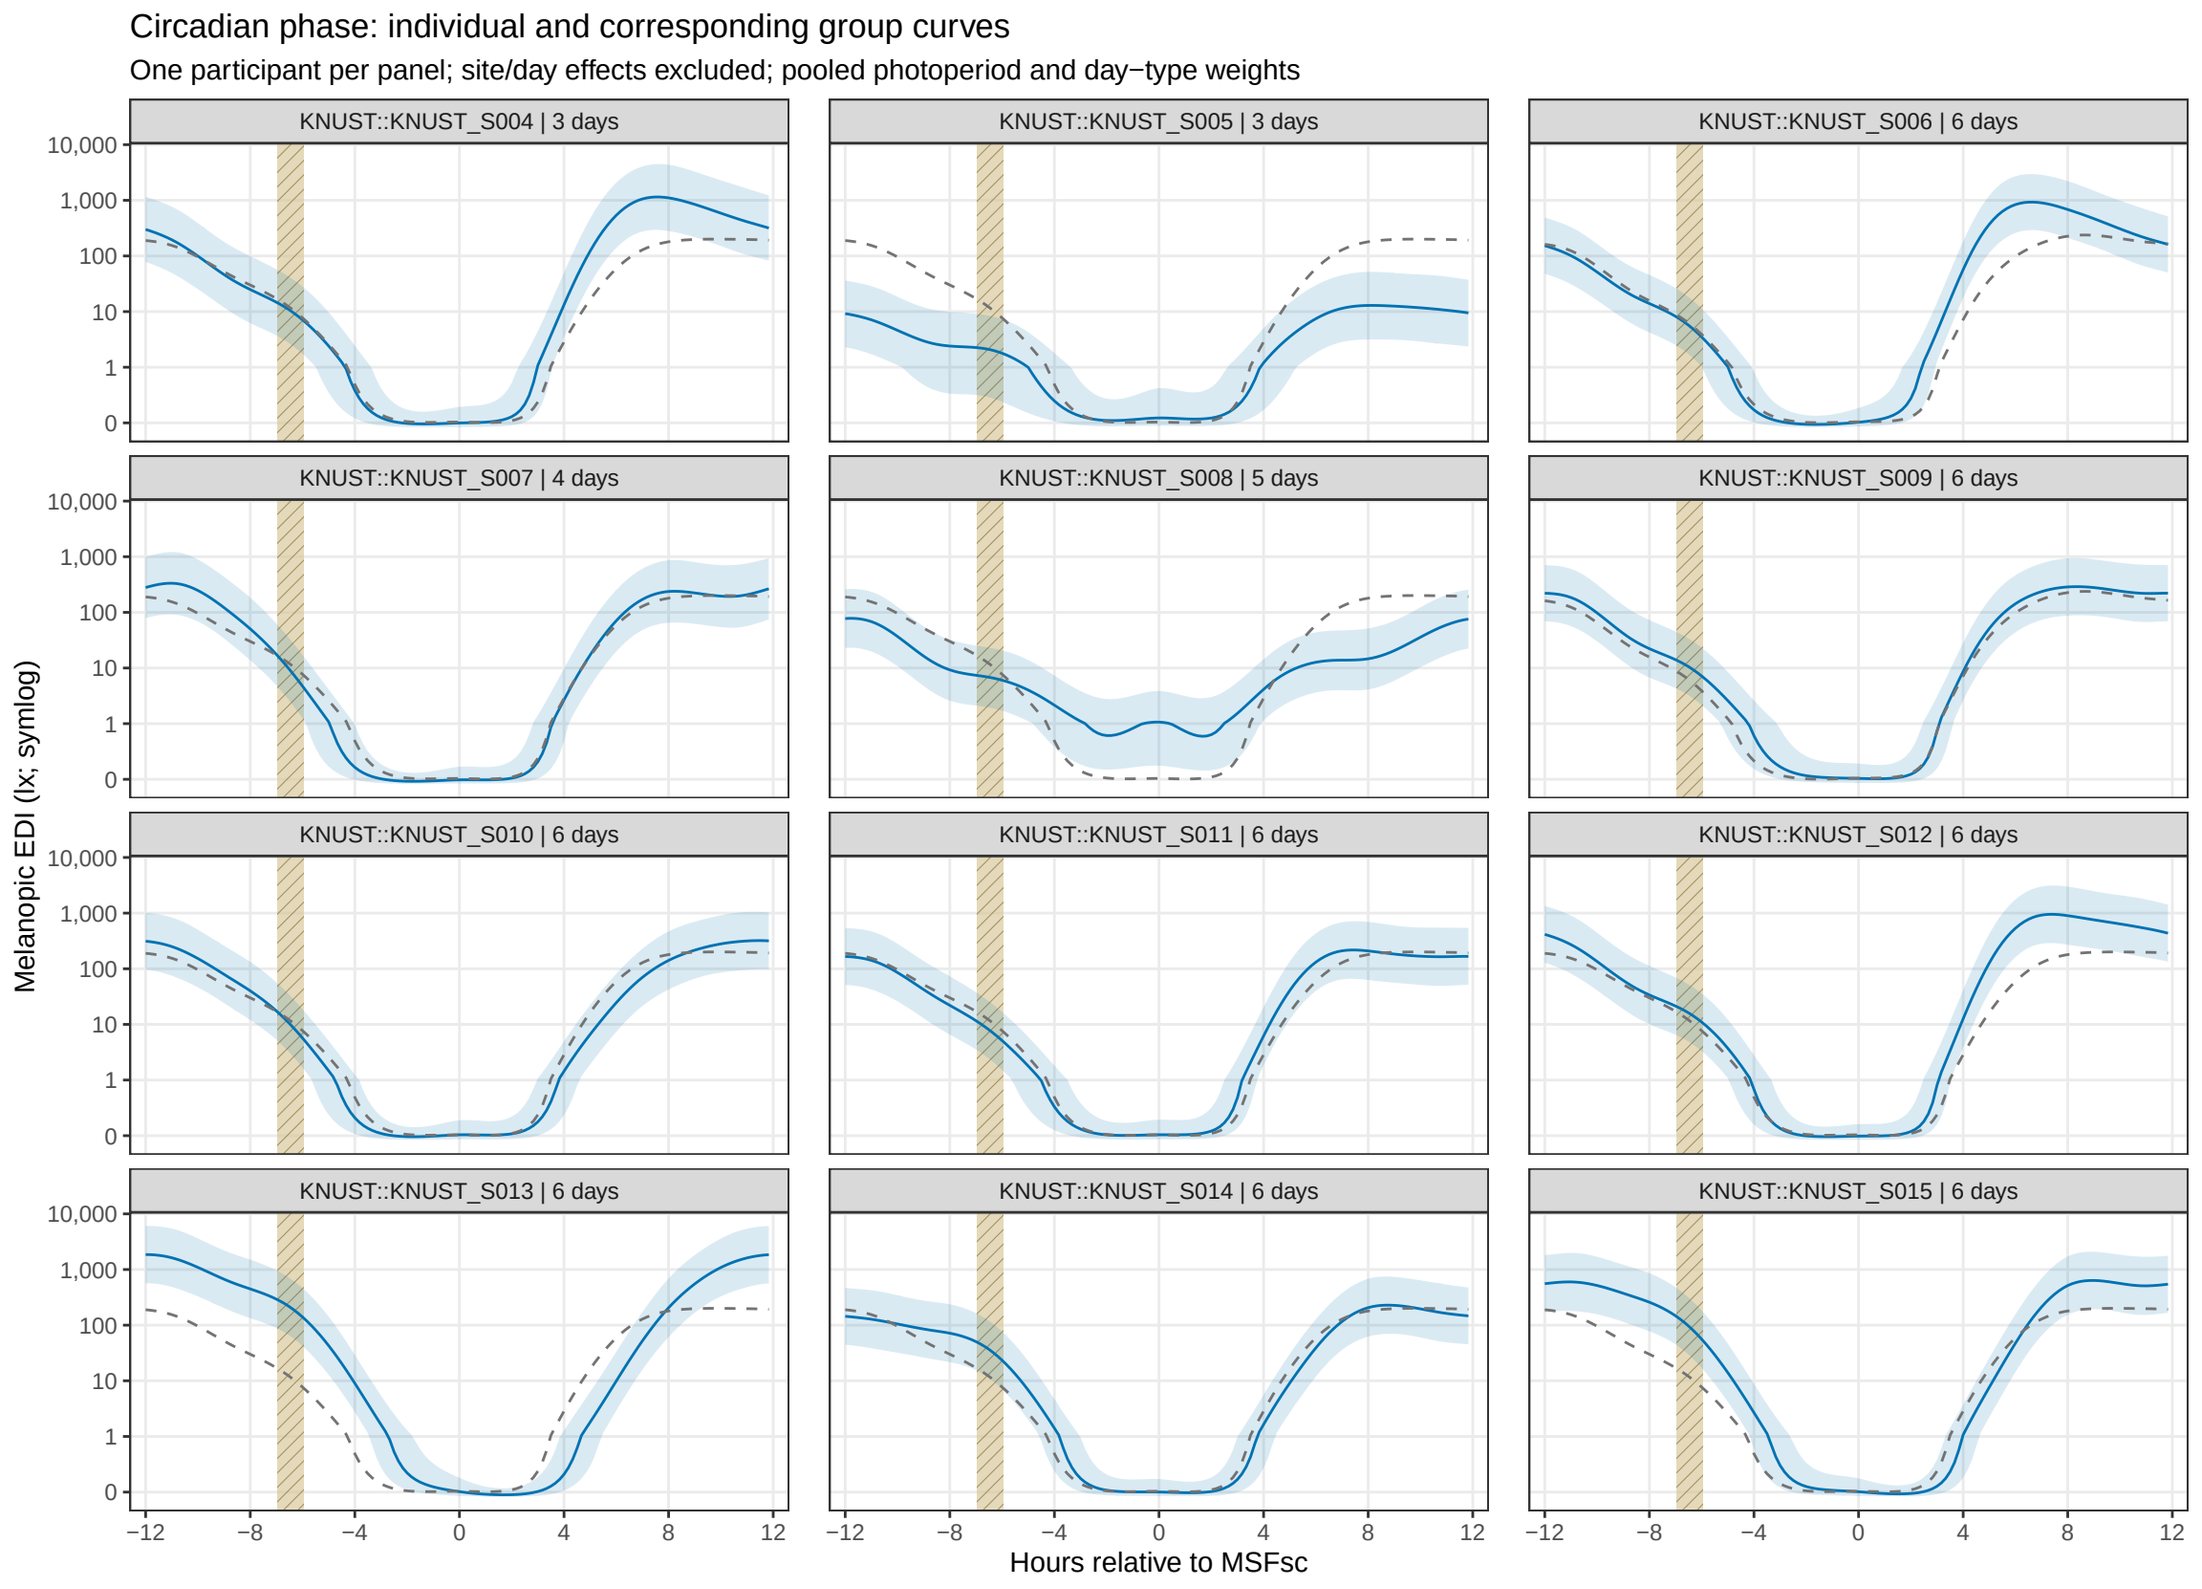

Circadian phase: individual and corresponding group curves
One participant per panel; site/day effects excluded; pooled photoperiod and day−type weights
